PROFILE SUMMARY

Fullstack Developer with proven success in building and optimizing applications using Next.js, Firebase, GCP, Redux Toolkit, and Tailwind CSS. Skilled across the MERN stack , Codeigniter Php with expertise in API integration, Payment Gateway Integration, performance tuning, and UI development. Delivered projects that reduced page load times by 25%, improved scalability by 50%, and increased user engagement by 40%

TECHNICAL SKILLS

Languages	:	C, JavaScript, Java, PHP,HTML5, CSS3, Flutter
Frameworks	:	NextJS, ReactJS, Bootstrap, Material UI, Redux Toolkit, Tailwind CSS, Material UI, Bootstrap5, React Router, ExpressJS, CodeIgnitor, Wix, Payment Gateway Integration
Libraries	:	ReactJS, Next JS, NodeJS, Express.js, Tailwind CSS, ShadeCN, MUI
Databases	:	MongoDB, MySQL, Firebase, Supabase
Dev Tools	:	Visual Studio Code, Git, Postman, Xcode, JIRA, Zoho Books,
GCP Services	:	Compute Engine, App Engine, Cloud Storage, BigQuery, IAM, Cloud Scheduler, IAM

PROFESSIONAL EXPERIENCE

Software Developer Engineer

Mars Web Solution Jayanagar, Bengaluru India
July '2025 - Present

- Collaborative Development:** Developed a scalable web application using Next Js, Node js, CodeIgnitor PHP, Express js, Firebase, Supabase, and MySQL, ensuring robust backend functionality.
- Front-End Infrastructure Development:** Built reusable design systems and Javascript libraries to improve scalability.
- Performance Reporting:** Created detailed reports for directors and state leads, enhancing team performance insights.
- Operational Support:** Implemented real-time data synchronization, user authentication, and REST APIs to enhance security and system efficiency.

Associate Software Engineer

Electromotion e-Vidyut Vehicles Private Limited, Pune, Maharashtra, India
June '2024 - July '2025

- **Full-Stack Development:** Implemented comprehensive solutions using ReactJS, Node.js, and Firebase. Built RESTful APIs, managed state with Redux, optimized database operations using MongoDB & Firebase.
- **Reusable Component Design:** Created reusable UI components using Tailwind CSS and ReactJS, ensuring consistency across applications.
- **Cross-Functional Collaboration:** Worked closely with designers, engineers, founders, and product managers to translate wireframes and designs into functional applications.
- **Mentorship & Code Reviews:** Provided technical mentorship to junior developers, conducted rigorous code reviews, and maintained high development standards.

Frontend Developer Intern

Shreshthana IT Solutions

December '2022 - May '2023

- **Web Application Development:** Designed and implemented reusable front-end components using ReactJS.
- **Cross-Functional Teamwork:** Collaborated with designers, engineers, and product managers to enhance project outcomes.
- **Infrastructure Development:** Built core front-end libraries, conducted code reviews, and mentored interns team members.
- **Technology Stack:** Worked with ReactJS, Redux, REST API, JIRA, ReactStrap, Material UI.

Full Stack Development - Intern

Epointer Consultancy Services, Ranchi, Jharkhand India

October '2021 - November '2022

- **Component Development:** Designed reusable front-end components for web applications.
- **Team Collaboration:** Translated wireframes into high-quality applications in collaboration with designers and product managers.
- **Technology Stack:** Worked with React Js, PHP, Tailwind Css, Material UI, Sql.

EDUCATION

Cambridge Institute of Technology, Ranchi, Jharkhand, India
Bachelor of Technology in Computer Science & Engineering
August '2020 - June '2024 (8.35 cgpa)

ACHIEVEMENTS

- Winner, Google Code Vipassana(Project Saadhna Cycle 2) , Google Developer Groups 2023.
